

Atomic Increment Operator

Mobile Backend Services supports the Mongo `$inc` atomic increment operator.

`$inc`

You can use `$inc` to increment (or decrement) a [custom field](#) by a specified value in a single update operation.

- The operator accepts positive and negative increment amounts
- It can only be applied to a single field per method call.

`$inc` is specified with the following form, where `fieldName` is the name of the field to update and `value` is a positive (or negative) number to increment (or decrement) `fieldName` by:

```
"fieldName": { "$inc:" value}
```

The operator must be enclosed in quotes, as shown above. The following methods support the `$inc` operator:

- [Checkins.update](#)
- [CustomObjects.update](#)
- [Events.update](#)
- [Files.update](#)
- [PhotoCollections.update](#)
- [Photos.update](#)
- [Places.update](#)
- [Posts.update](#)
- [Reviews.update](#)
- [Users.update](#)
- [Statuses.update](#)

Examples

The following example increments the `score` custom field by 10 in a [CustomObjects](#) update to a custom object called `family`:

> Expand

```
$ curl -b c.txt -c c.txt -X PUT -F "id=511117915554f74313000009" -F  
"fields={"favorite":"play xbox 360",  
"pet":"shark" ,"score":{"$inc":10}}"  
"api.cloud.appcelerator.com/v1/objects/family/update.json?key=TENIhpXtjFbkBbztvfZMwnci  
OjE9aHjd"  
{  
  "meta": {  
    "code": 200,  
    "status": "ok",

    "created_at": "2013-02-05T14:05:06+0000",
    "updated_at": "2013-02-05T14:05:08+0000",
    "external_accounts": [

    ],
    "confirmed_at": "2013-02-05T14:05:06+0000",
    "username": "alice",
    "email": "alice@gal.com",
    "admin": "false"
  },
  "custom_fields": {
    "family_name": "ACS",
    "score": 15,
    "age": 40,
    "cars": 1,
    "favorite": "play xbox 360",
    "pet": "shark"
  }
}
```

```
    ]  
  }  
}
```

If you apply \$inc to multiple fields in one Update call, you will get an error:

```
$ curl -b c.txt -c c.txt -X PUT -F "checkin_id=511111945554f742d300000b" -F  
"custom_fields={"favorite":"play xbox 360", "pet":"shark" ,"score":{$inc:10},  
"age":{$inc:10}}"  
"http://api.cloud.appcelerator.com/v1/checkins/update.json?key=HSejkGE9ghavAelMJv7bZYN  
M5HyMhqYq"  
{  
  "meta": {  
    "status": "fail",  
    "code": 400,  
    "message": "$inc operation only support to increase one field once.",  
    "method_name": "updateCheckin"  
  }  
}
```
