About this release

Titanium SDK 8.3.1 is a patch release of the SDK, addressing high-priority issues from previous releases.

As of this GA release, the previous Titanium SDK patch release (8.3.0) is no longer supported. End of support for this version will be 2020-07-17 or until the next patch release. Note: major and minor releases continue to be supported according to their nominal lifetime. See [Axway Appcelerator Deprecation Policy](#) and [Nominal Lifetimes](#) documents for details.

With the release of Titanium SDK 9.0.0, we will no longer support Node.js 8.X. Node 10.13.0 will be the new minimum supported version with SDK 9.0.0.
